## Skills

I was a Intern at Dev.Al for C# ASP.NET in summer 2023, and i learned to use Entity Framework to make fully functioning web api-s. ( Certified )
Intern at 2RmLab where i learned Html,CSS, js, Vue.js, Vuetify
Excellent communication skills , written and verbal ones.
Aquired the ability to work efficiently with team member as ex Frontend users.
Have a good grasp of software quality and testing its reliability.

## Education

Canadian Institute of Technology (2021-2024):
Bachelor for Software Engineering
Protagonistet High School (2018-2021):
High School GPA: 9.8
Edith Durham Middle School:
Middle School GPA:9.6

## Projects

- Market Inventory Management ( POS) with CRUD - This was a school assignment to create a project in Java and MySQL with and GUI interface.
- Parking lot Management APi - An api requested by the intern at Dev.al , made using asp.net , entity framework and postgresql. It has prices for the parking and check in/out. You can subscribe to the parking-lot to have a lower price thats paid monthly. The api keeps track of subscribers, cars and prices. It is fully functioning for frontend.
